

UNITED STATES DISTRICT COURT
WESTERN DISTRICT OF WASHINGTON
AT SEATTLE

SONNY JOYCE, Individually and on Behalf
of All Others Similarly Situated,

Plaintiffs,

V.

AMAZON.COM, INC., ANDREW R.
JASSY, JEFFREY P. BEZOS, BRIAN T.
OLSAVSKY, DAVID A. ZAPOLSKY, and
NATE SUTTON,

Defendants.

ASBESTOS WORKERS PHILADELPHIA
WELFARE AND PENSION FUND, on
behalf of itself and all others similar situated,

Plaintiff,

V.

AMAZON.COM, INC., ANDREW R.
JASSY, BRIAN T. OLSAVSKY, and
DAVID FILDES.

Defendants.

CASE NO. 2:22-cv-00617

ORDER RE: DEFENDANTS' MOTION TO DISMISS

1 DETECTIVES ENDOWMENT
2 ASSOCIATION ANNUITY FUND,
3 Individually and on Behalf of All Others
4 Similarly Situated,

5 Plaintiff,

6 v.

7 AMAZON.COM, INC., ANDREW R.
8 JASSY, BRIAN T. OLSAVSKY, and
9 DAVID FILDES,

10 Defendants.

11 **I**

12 **INTRODUCTION**

13 This matter comes before the Court on Defendants' Motion to Dismiss the Consolidated
14 Class Action Complaint. Dkt. # 75. The motion requests dismissal with prejudice. *Id.* at 55.
15 The Court has considered the submissions in support of and in opposition to the motion, the case
16 file, and the applicable law. Being fully advised, the Court GRANTS the motion to the extent it
17 seeks dismissal. But it DISMISSES the complaint without prejudice and GRANTS Plaintiffs
18 leave to amend.

19 **II**

20 **BACKGROUND**

21 Lead Plaintiffs Universal-Investment-Gesellschaft mbH, Universal-Investment-
22 Luxembourg S.A., Menora Mivtachim Insurance Ltd., Menora Mivtachim Pensions and Gemel
23 Ltd., The Phoenix Insurance Company, Ltd., and The Phoenix Provident Pension Fund Ltd.,
24 along with Named Plaintiffs Asbestos Workers Philadelphia Welfare and Pension Fund and
Detectives Endowment Association Annuity Fund (collectively, "Plaintiffs") bring this
consolidated class action under Sections 10(b) and 20(a) of the Securities and Exchange Act of

1 1934 (“Exchange Act”) on behalf of persons and entities who acquired publicly traded common
 2 stock of Amazon.com, Inc. (“Amazon”) between February 1, 2019 and April 28, 2022 (“Class
 3 Period”). *See generally* Dkt. ## 58, 70.

4 According to Plaintiffs: Amazon is a multinational technology company with multiple
 5 business lines, including e-commerce services and distribution, website development and
 6 hosting, inventory and supply chain management, and fulfillment and logistics. Dkt. # 70 at 14–
 7 15. “Through its Amazon.com e-commerce and fulfillment platforms, [Amazon] offers products
 8 to retail consumers from 1.7 million businesses.” *Id.* at 18. On Amazon’s online marketplace,
 9 the company sells both third-party merchandise and its own private-label products. *Id.* at 8.
 10 When using the marketplace, third-party sellers sell their products and, in return, pay fees; third-
 11 party sellers also provide certain non-public data regarding their products to Amazon. *Id.* at 8,
 12 18. In addition, third-party sellers may sell their goods through Amazon’s fulfillment service,
 13 called “Fulfilled by Amazon” (“FBA”). *Id.* at 18.

14 Plaintiffs bring suit against Amazon and six of its corporate executives (collectively,
 15 “Defendants”), including: (1) Jeffrey Bezos, founder and Executive Chair; (2) Andrew Jassy,
 16 Amazon President, CEO, and Director; (3) Brian Olsavsky, Senior Vice President and Chief
 17 Financial Officer; (4) David Zapolsky, Senior Vice President, General Counsel, and Secretary;
 18 (5) Nate Sutton, Associate General Counsel; and (6) David Fildes, Head of Investor Relations
 19 (“Individual Defendants”). Dkt. # 70 at 15–16.

20 Plaintiffs filed this action on May 6, 2022. Dkt. # 1. On August 17, 2022, the Court
 21 consolidated the case with a parallel putative class action.¹ Dkt. # 58. In the Consolidated
 22 Amended Complaint (“CAC”), filed on September 20, 2022, Plaintiffs contend that Defendants
 23

24 ¹ See *Detectives Endowment Ass’n Annuity Fund v. Amazon.com, Inc., et al.*, 2:22-cv-0095-JHC.

1 committed two categories of securities violations: (1) that Defendants misrepresented and/or
 2 failed to disclose the fact that they exploited third-party sellers in an anticompetitive manner
 3 (“third-party allegations”); and (2) that Defendants similarly misrepresented and/or failed to
 4 disclose Amazon’s infrastructure and fulfillment capacity (“capacity allegations”). Dkt. # 70 at
 5 12–85. Plaintiffs bring two causes of action: (1) a claim under 15 U.S.C. § 78j (Section 10(b) of
 6 the Exchange Act) and Rule 10b-5, promulgated by the Securities and Exchange Commission
 7 (“SEC”); and (2) a claim under 15 U.S.C. § 78t(a) (Section 20(a) of the Exchange Act). *Id.* at
 8 176–78.

9 Defendants move to dismiss the CAC, contending: (1) Defendants’ statements related to
 10 the third-party allegations and capacity claims were neither false nor misleading; (2) Plaintiffs
 11 fail to plead a strong inference of scienter; (3) Plaintiffs do not allege loss causation as it relates
 12 to the third-party allegations; (4) Plaintiffs’ third-party allegations are time-barred; and (5)
 13 Plaintiffs fail to allege control person liability. *See* Dkt. # 75 at 12–44. Defendants also seek
 14 judicial notice or, in the alternative, incorporation by reference, of Exhibits 2–50. *See* Dkt. ##
 15 77, 76–2 through 76–50.

16 III

17 DISCUSSION

18 When considering a motion to dismiss under Rule 12(b)(6), a court construes the
 19 complaint in the light most favorable to the nonmoving party. *Livid Holdings Ltd. v. Salomon*
 20 *Smith Barney, Inc.*, 416 F.3d 940, 946 (9th Cir. 2005). The court must accept all well-pleaded
 21 facts as true and draw all reasonable inferences in favor of the plaintiff. *Wyler Summit P’ship v.*
 22 *Turner Broad. Sys. Inc.*, 135 F.3d 658, 661 (9th Cir. 1998). “To survive a motion to dismiss, a
 23 complaint must contain sufficient factual matter, accepted as true, to ‘state a claim to relief that is

1 plausible on its face.”” *Ashcroft v. Iqbal*, 556 U.S. 662, 678 (2009) (quoting *Bell Atl. Corp. v.*
 2 *Twombly*, 550 U.S. 544, 570 (2007)).

3 Securities fraud actions must meet the “exacting” pleading standards of Federal Rule of
 4 Civil Procedure 9(b) and the Private Securities Litigation Reform Act (“PSLRA”). *Tellabs, Inc.*
 5 *v. Makor Issues & Rts., Ltd.*, 551 U.S. 308, 313 (2007). Rule 9(b) requires that, “[i]n alleging
 6 fraud or mistake, a party must state with particularity the circumstances constituting fraud or
 7 mistake.” Fed. R. Civ. P. 9(b). The PSLRA also imposes the heightened requirement that a
 8 plaintiff state with particularity “both the facts constituting the alleged violation, and the facts
 9 evidencing scienter, i.e., the defendant’s intention to deceive, manipulate, or defraud.” *Tellabs*,
 10 551 U.S. at 313 (citing 15 U.S.C. § 78u-4(b)(1), (2)) (internal quotations and citations omitted);
 11 *see also Oregon Pub. Employees Ret. Fund v. Apollo Grp. Inc.*, 774 F.3d 598, 604 (9th Cir.
 12 2014).

13 A. Judicial Notice and Incorporation by Reference

14 As an initial matter, Defendants ask the Court to judicially notice or incorporate by
 15 reference these documents:

Exhibit	Description	Complaint Reference(s)
1	Chart of Plaintiffs’ statements, organized by category	None
2	Excerpts from report of the Subcommittee on Antitrust, Commercial and Administrative Law of the Committee on the Judiciary <i>Investigation of Competition in Digital Markets: Majority Staff Report and Recommendations</i>	¶¶ 7, 13, 57, 100, 118–19, 125–26, 134, 246, 475–76
3	Letter to investors from Jeffrey Bezos (April 11, 2019)	¶ 61 n.12
4	Tweet from Amazon News account (April 23, 2019)	¶ 288
5	Excerpts from Jeffrey Bezos’s testimony before the Subcommittee on Antitrust, Commercial and Administrative Law (July 29, 2020)	¶¶ 56, 67–68, 74, 105, 108, 126, 142
6	Excerpts from Amazon’s Responses to Questions for the Record following the July 16, 2019 Subcommittee Hearing (October 11, 2019)	¶¶ 65, 307

1	7	Excerpts from Nate Sutton's testimony before the Subcommittee on Antitrust, Commercial, and Administrative Law (July 16, 2019)	¶¶ 63, 104, 295, 297, 302, 304, 445
2	8	Letter from David Zapsolsky to Subcommittee Chair David N. Cicilline (July 26, 2019)	¶¶ 308–309
3	9	Letter from Amazon to Subcommittee Members (May 15, 2020)	¶¶ 332–334
4	10	<i>Wall Street Journal</i> article “Amazon Scooped Up Data From Its Own Sellers to Launch Competing Products” (April 23, 2020)	¶¶ 53, 64–69, 330–334, 446

23
24 See generally Dkt. # 77.

1 Generally, when considering a motion to dismiss under Rule 12(b)(6), a court may not
 2 “consider material outside the pleadings when assessing the sufficiency of a complaint.” *Khoja*
 3 *v. Orexigen Therapeutics, Inc.*, 899 F.3d 988, 998 (9th Cir. 2018). The PSLRA provides two
 4 exceptions to this rule, allowing for courts to consider certain documents through: (1) judicial
 5 notice under Federal Rule of Evidence 201; and (2) the incorporation-by-reference doctrine.
 6 *Tellabs*, 551 U.S. at 322.

7 The Ninth Circuit, however, has noted a “concerning pattern in securities cases” in which
 8 litigants improperly exploit these two exceptions to “defeat what would otherwise constitute
 9 adequately stated claims at the pleading stage.” *Khoja*, 899 F.3d at 998. “The overuse and
 10 improper application of judicial notice and the incorporation-by-reference doctrine . . . can lead
 11 to unintended and harmful results[,]” in which defendants “face an alluring temptation to pile on
 12 numerous documents to their motions to dismiss to undermine the complaint.” *Id.* “This risk is
 13 especially significant in fraud matters, where there is already a heightened pleading standard, and
 14 the defendants possess materials to which the plaintiffs do not yet have access.” *Id.*

15 1. Judicial Notice

16 A court may “judicially notice a fact that is not subject to reasonable dispute” when it is
 17 (1) “generally known within the trial court’s territorial jurisdiction” or (2) “can be accurately and
 18 readily determined from sources whose accuracy cannot reasonably be questioned.” Fed. R.
 19 Evid. 201(b)(1)–(2). While a court may take judicial notice of matters of public record, it may
 20 not take judicial notice of *disputed matters* contained within the public record. *Lee v. City of Los*
 21 *Angeles*, 250 F.3d 668, 689 (9th Cir. 2001). Therefore, a “high degree of indisputability” is
 22 generally required for such judicial notice. *Jespersen v. Harrah’s Operating Co., Inc.*, 444 F.3d
 23 1104, 1110 (9th Cir. 2006) (citing Fed. R. Evid. 201 advisory committee notes).

1 Defendants contend that Exhibits 2–50 are “properly subject to judicial notice” because
 2 these documents are publicly available, not subject to reasonable dispute, and help contextualize
 3 the allegations in the CAC. Dkt. # 77 at 12–15 (citing cases); *see also* Dkt. ## 76–2 through 76–
 4 50. Plaintiffs disagree, contending that “[w]hile the Court may take judicial notice of the
 5 existence and publication of these documents, the Court should **not** take judicial notice of these
 6 documents for the underlying truth of the statements[.]” Dkt. # 83 at 11 (citing cases).

7 After consideration of the parties’ briefing and the applicable law, the Court takes judicial
 8 notice of the existence of Exhibits 2–50 for the limited purpose of recognizing that these
 9 documents were within the public realm at the times alleged by Plaintiffs. The Court recognizes
 10 that (1) SEC filings, *Metzler Inv. GMBH v. Corinthian Colleges, Inc.*, 540 F.3d 1049, 1064 n.7
 11 (9th Cir. 2008), (2) publicly available news articles, *Heliotrope Gen., Inc. v. Ford Motor Co.*,
 12 189 F.3d 971, 981 n.18 (9th Cir. 1999), and (3) documents posted on government websites, *City*
 13 & *County of San Francisco v. Garland*, 42 F.4th 1078, 1083 n.3 (9th Cir. 2022), are generally
 14 matters of public record. But the parties in many instances dispute the veracity of the contents of
 15 these documents (and indeed, many of these factual disputes relate to the basis of Plaintiffs’
 16 claims). Judicial notice is thus appropriate only to “indicate what was in the public realm at the
 17 time, not whether the contents of those articles were in fact true.” *Von Saher v. Norton Simon*
 18 *Museum of Art at Pasadena*, 592 F.3d 954, 960 (9th Cir. 2010); *see also In re Zillow Grp., Inc.*
 19 *Sec. Litig.*, No. C17-1387-JCC, 2018 WL 4735711, at *3 (W.D. Wash. Oct. 2, 2018); *In re*
 20 *Zynga Inc. Sec. Litig.*, No. C 12-04007 JSW, 2015 WL 1382217, at *4 n.1 (N.D. Cal. Mar. 25,
 21 2015); *Jespersen*, 444 F.3d at 1110 (discussing indisputability).

22 2. Incorporation by Reference

23 The doctrine of incorporation by reference “treats certain documents as though they are
 24 part of the complaint itself,” preventing “plaintiffs from selecting only portions of documents

1 that support their claims, while omitting portions of those very documents that weaken—or
 2 doom—their claims.” *Khoja*, 899 F.3d at 1002. “[C]ourts may take into account ‘documents
 3 whose contents are alleged in a complaint and whose authenticity no party questions, but which
 4 are not physically attached to the [plaintiff’s] pleading.’” *Davis v. HSBC Bank Nevada, N.A.*,
 5 691 F.3d 1152, 1160 (9th Cir. 2012). A document may be incorporated by reference into a
 6 complaint if the plaintiff (1) “refers extensively to the document” or (2) the document “forms the
 7 basis of the plaintiff’s claim.” *United States v. Ritchie*, 342 F.3d 903, 908 (9th Cir. 2003).

8 i. Extensively Referenced

9 Defendants assert that Exhibits 2–50 are appropriate for incorporation by reference
 10 because each exhibit is extensively referenced throughout the CAC. Dkt. # 77 at 10–11. In
 11 response, Plaintiffs clarify that two documents (Exhibits 1 and 51) are not referenced at all in the
 12 CAC, and 20 documents (Exhibits 3, 4, 11–14, 16, 18, 19, 24, 34, 40, 42–44, 46–50) are
 13 referenced only once. Dkt. # 83 at 9–10. They further argue that, although the remaining
 14 documents are referenced more than once, given the length of the CAC, these references are not
 15 sufficiently lengthy or numerous to qualify as “extensive.” *Id.*

16 The Court agrees with Plaintiffs that none of the exhibits in question are referenced
 17 “extensively” in the CAC. First, “[f]or ‘extensively’ to mean anything under *Ritchie*, it should,
 18 ordinarily at least, mean [the document is referenced] more than once . . .” *Khoja*, 899 F.3d at
 19 1003. Therefore, the two exhibits that are not referenced at all, as well as the 20 documents
 20 referenced in only one paragraph of the complaint, are not extensively referenced.² Further,
 21 while *Khoja* implies that the term “extensive” includes documents mentioned more than once, it

22
 23 ² *Koja* contemplates the possibility that a single reference may be sufficiently extensive if the
 24 reference is “relatively lengthy.” *Khoja*, 899 F.3d at 1003. But none of the CAC’s references to these
 documents is particularly lengthy.

1 does not necessarily require incorporation by reference when an exhibit has exceeded the one-
 2 reference threshold. In this case, the CAC is particularly long, consisting of 173 pages and 532
 3 paragraphs. Although the remaining exhibits are referenced more than once, the most referenced
 4 exhibit is mentioned in only thirteen out of the CAC's total 532 paragraphs (2.4%). Further,
 5 Plaintiffs make many of these references in their factual background section. *See, e.g.*, Dkt. # 70
 6 at 19, 24–25. The Court concludes that these references fall short of the “extensive” requirement
 7 articulated in *Khoja*. *See also Synopsys, Inc. v. InnoGrit, Corp.*, No. 19-CV-02082-LHK, 2019
 8 WL 4848387, at *5 (N.D. Cal. Oct. 1, 2019).

9 ii. Basis of the Complaint

10 Next, Defendants contend that Exhibits 2–50 should be incorporated by reference
 11 because they form the basis of Plaintiffs’ CAC. First, Defendants contend that the “SEC filings,
 12 earnings call transcripts, and other documents” (Exhibits 4, 6–10, 14–16, 20, 25–35, 38–39, and
 13 43) form the basis of the CAC because they contain “allegedly misleading statements at the heart
 14 of this lawsuit.” Dkt. # 85 at 5 (citing *Khoja*, 899 F.3d at 1002; *In re Apple Inc. Sec. Litig.*, No.
 15 19-cv-02033-YGR, 2020 WL 2857397, at *5 (N.D. Cal. June 2, 2020)). Defendants also
 16 maintain that the remaining exhibits form the basis of the CAC because (1) they “contain alleged
 17 corrective disclosures that purportedly revealed the fraud and caused Plaintiffs’ losses” (Exhibits
 18 2, 13, 15, 39–42, and 44–47); and (2) “Plaintiffs rely on [certain statements in the exhibits] . . .
 19 to attempt to plead falsity and scienter for their fraud claim” (Exhibits 2, 8, 11–12, 17–19, 21–24,
 20 36–38, 48, 50). Dkt. # 85 at 6. In response, Plaintiffs contend that there is no single document
 21 on which the CAC necessarily relies to form a basis for the complaint. Dkt. # 83 at 10 (citing
 22 *Reed v. Gen. Mills, Inc.*, No. C19-0005-JCC, 2019 WL 2475706, at *2 (W.D. Wash. June 13,
 23 2019)). Plaintiffs do concede that the Court *could* find that the CAC necessarily relies on the
 24 SEC filings (Exhibits 16, 20, 25–29, 32, 33, 35, 51) and earnings calls (Exhibits 14–15, 30, 31,

1 34), but they argue that the incorporation of these documents would still be inappropriate
 2 because they contain disputed statements, the truth of which is at issue in the fraud claims. Dkt.
 3 # 83 at 11.

4 The Court agrees with Plaintiffs. There is no indication that any of the exhibits, on their
 5 own, form the basis of Plaintiffs' CAC so as to imply that a "claim necessarily depended" on that
 6 document. *Khoja*, 899 F.3d at 1002; *see generally Palmer v. Milnor*, No. 2:19-CV-00961-RAJ,
 7 2021 WL 462656 (W.D. Wash. Feb. 9, 2021) (when there is no one document central to the
 8 claim, and reference to the document is brief, incorporation by reference is not appropriate).
 9 Further, "[a]lthough incorporation by reference generally permits courts to accept the truth of
 10 matters asserted in incorporated documents . . . it is improper to do so only to resolve factual
 11 disputes against the plaintiff's well-pled allegations in the complaint." *Khoja*, 899 F.3d at 1014.
 12 Because the truth of the statements in the SEC Filings and earnings calls—despite plausibly
 13 serving as the basis for the claims alleged in the CAC—are disputed by the parties, the Court
 14 declines to incorporate these documents at this pleading stage.

15 B. Section 10(b) of the Exchange Act and Rule 10b-5

16 The CAC's first cause of action alleges that Defendants violated Section 10(b) of the
 17 Exchange Act and Rule 10b-5. Section 10(b) of the Exchange Act makes it

18 unlawful for any person, directly or indirectly, by the use of any means or
 19 instrumentality of interstate commerce or of the mails, or of any facility of any
 20 national securities exchange . . . [t]o use or employ, in connection with the purchase
 21 or sale of any security . . . any manipulative or deceptive device or contrivance in
 22 contravention of such rules and regulations as the Commission may prescribe as
 23 necessary or appropriate in the public interest or for the protection of investors.

24 15 U.S.C. § 78j. The SEC, pursuant to this statute, promulgated Rule 10b-5, which makes it
 25 unlawful:

26 (a) [t]o employ any device, scheme, or artifice to defraud,

(b) [t]o make any untrue statement of a material fact or to omit to state a material fact necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, or

(c) [t]o engage in any act, practice, or course of business which operates or would operate as a fraud or deceit upon any person,

in connection with the purchase or sale of any security. 17 CFR § 240.10b-5.

In a Section 10(b) private action a plaintiff must prove six elements: (1) a material misrepresentation or omission by the defendant (falsity); (2) scienter; (3) a connection between the misrepresentation or omission and the purchase or sale of a security; (4) reliance on the misrepresentation or omission; (5) economic loss; and (6) loss causation. *Stoneridge Inv. Partners, LLC v. Sci.-Atlanta*, 552 U.S. 148, 157 (2008) (citing *Dura Pharmaceuticals, Inc. v. Broudo*, 544 U.S. 336, 341–342 (2005)). Defendants seek dismissal of this cause of action, contending that: (1) Defendants’ statements regarding the third-party allegations and capacity claims were neither false nor misleading; (2) the CAC does not allege a strong inference of scienter; (3) the CAC does not allege loss causation as it relates to the third-party allegations; and (4) the third-party allegations are time-barred. See Dkt. # 75 at 12–44.

1. Material Misrepresentations or Omissions

Defendants first argue that none of their statements regarding third party sellers or capacity constituted material misrepresentations or omissions.

Under the PSLRA, a complaint must “specify each statement alleged to have been misleading, the reason or reasons why the statement is misleading, and, if an allegation regarding the statement or omission is made on information and belief, the complaint shall state with particularity all facts on which that belief is formed.” 15 U.S.C. § 78u-4(b)(1)(B). “For a statement to be false or misleading, it must ‘directly contradict what the defendant knew at that time’ or ‘omit[] material information.’” *Weston Family P’ship LLLP v. Twitter, Inc.*, 29 F.4th

1 611, 619 (9th Cir. 2022) (quoting *Khoja*, 899 F.3d at 1008–09). To comply with the PSLRA’s
 2 particularity requirements and Rule 9(b), “fraud must be accompanied by the who, what, when,
 3 where, and how of the misconduct charged.” *Weston Family*, 29 F.4th at 619 (quoting *Kearns v.*
 4 *Ford Motor Co.*, 567 F.3d 1120, 1125 (9th Cir. 2009)). An allegedly misleading statement must
 5 be “capable of objective verification as opposed to ‘inherently subjective puffing.’” *Oregon*
 6 *Pub. Employees*, 774 F.3d at 606.

7 When a statement is not false, it may still be misleading if it omits material information.
 8 *Khoja*, 899 F.3d at 1008–09 (citing *In re NVIDIA Corp. Sec. Litig.*, 768 F.3d 1046, 1054 (9th
 9 Cir. 2014)). “A statement of omission is misleading in the securities fraud context ‘if it would
 10 give a reasonable investor the impression of a state of affairs that differs in a material way from
 11 the one that actually exists.’” *Reese v. BP Expl. (Alaska) Inc.*, 643 F.3d 681, 691 (9th Cir. 2011)
 12 (quoting *Berson v. App. Signal Tech., Inc.*, 527 F.3d 982, 985 (9th Cir. 2008)). An omission is
 13 material “when there is a substantial likelihood that the disclosure of the omitted fact would have
 14 been viewed by the reasonable investor as having significantly altered the total mix of
 15 information available.” *Matrixx Initiatives, Inc. v. Siracusano*, 563 U.S. 27, 38 (2011) (internal
 16 citation omitted). Without a duty to disclose, an omission does not necessarily give rise to a
 17 cause of action under Section 10(b). An “actionable omission claim arises only when disclosure
 18 is necessary . . . to make the statements made, in light of the circumstances under which they
 19 were made, not misleading.” 17 C.F.R. § 240.10b–5(b).

1 a. Statements Related to Third-Party Sellers

- 2 (1) Whether Amazon was charged with Anticompetitive Conduct or
 3 Disclosed the Possibility of Governmental Inquiry is Irrelevant to
 4 Plaintiffs' Claims.

5 Defendant's first argument for dismissal is that Plaintiffs' allegations are "drawn entirely
 6 from investigations . . . of anticompetitive conduct by Congress, regulators, and state AGs[,]"
 7 which did not result in charges or adjudications during the Class Period. Dkt. # 75 at 23.

8 Defendants assert that there is no duty to "disclose uncharged, unadjudicated wrongdoing." Dkt.
 9 # 75 at 23 (*In re PayPal Holdings, Inc. S'holder Deriv. Litig.*, No. 17-cv-00162-RS, 2018 WL
 10 466527, at *3 (N.D. Cal. Jan. 18, 2018)). Further Defendants contend that the Subcommittee
 11 Report determined that Amazon was not breaking any laws because the Report recommended
 12 Congress enact legislation to prospectively address Defendants' challenged conduct. Dkt. # 75
 13 at 24.

14 Defendants' argument is flawed. Despite references to anticompetitive behavior in the
 15 CAC, this is not an antitrust case. Instead, the Court must address whether Plaintiffs successfully
 16 plead the elements of a securities fraud claim. Whether the Subcommittee found Defendants to
 17 have violated existing antitrust laws or began to adjudicate related claims is a red herring.
 18 Instead, the Court must focus on whether Plaintiffs have pleaded—with particularity—that
 19 Defendants were deceptive with shareholders when discussing treatment of third-party sellers.

20 Defendants also contend that they did not mislead shareholders regarding governmental
 21 investigations into their business, because Amazon provided a disclaimer to investors that it is
 22 "regularly subject to formal and informal reviews and investigations by governments and
 23 regulatory authorities[.]" Dkt. ## 75 at 24, 76–20 at 13–14. However, here Defendants also miss
 24 the mark. Plaintiffs allege that Amazon did not disclose that it was engaging in exploitative

activities regarding its third-party sellers, not that Amazon did not disclose that it was under investigation by a governmental entity. Indeed, even if Defendants' argument were coherent, "inclusion of some cautionary language in a company's disclosures is 'not enough to support a determination as a matter of law that defendant's statements were not misleading.'" *Warshaw v. Xoma Corp.*, 74 F.3d 955, 959 (9th Cir. 1996). The Court thus declines to entertain arguments that the lack of governmental adjudication of a claim of anticompetitive conduct and the company's broad cautionary language in its shareholder disclosures should warrant dismissal.

(2) Data Statements are Adequately Alleged to be False or Misleading.

Next, Defendants argue that Plaintiffs' third-party seller claims fail because: (1) they do not "plead particular facts demonstrating that Amazon used nonpublic seller-specific information in contravention of [Amazon's internal] Policy"; (2) they repeatedly misdescribe Amazon's policy regarding third party sellers; and (3) even if they had identified isolated, discrete instances of Amazon violating its Policy, they do not plead that such violations are sufficiently widespread to render the Data Statements misleading. Dkt. # 75 at 25–28.

With respect to their first argument, Defendants contend that Plaintiffs' use of the *WSJ* article is not enough to allege a securities claim with particularity because the CAC must contain the "job titles and responsibilities of the anonymous former employees." Dkt. # 75 at 26 (quoting *Applestein v. Medivation, Inc.*, 561 F. App'x 598, 600 (9th Cir. 2014)). Further, according to Defendants, Plaintiffs may use news articles to plead particular facts only if the "newspaper article corroborates plaintiff's own investigation and provides detailed factual allegations." Dkt. # 75 at 26 (internal quotations omitted) (quoting *In re McKesson HBOC, Inc. Sec. Litig.*, 126 F. Supp. 2d 1248, 1272 (N.D. Cal. 2000)). According to Defendants, the CAC "cites only vague accounts from other sources" regarding third-party seller claims and

“allegations from [Plaintiffs’] own investigation” are notably absent. Dkt. # 75 at 27. In response, Plaintiffs contend that, when considering the use of anonymous sources in the *WSJ* article, the Court should consider that the article interviewed 20 former employees and that the Subcommittee uncovered significant evidence regarding Amazon’s treatment of third-party sellers corroborating those anonymous sources. Dkt. # 82 at 21.

The Court agrees with Plaintiffs and recognizes that, when considering anonymous sources at the pleading stage, if “other types of information corroborate the witness statements, such detailed descriptions are not necessary.” *In re Apple Inc. Sec. Litig.*, 2020 WL 6482014, at *11 (plaintiffs satisfied the particularity standard because, although the news sources cited relied on anonymous sources, the allegations were also based on detailed reports and other public sources). Here, Plaintiffs provide adequate corroborating information to support the anonymous sources in the article. For example, the CAC describes how the Subcommittee uncovered significant corroborating evidence that Amazon leveraged third-party sellers’ data to compete with them. *See* Dkt. # 70 at 20–22, 46.

Defendants’ second argument is that their internal policy prohibits use of data from *individual* third-party sellers unless publicly available, while allowing the use of third-party *aggregated* data. Dkt. # 75 at 27. They therefore maintain that the use of aggregate third-party seller data did not contradict statements challenged in the CAC. Dkt. # 75 at 27. Plaintiffs clarify in their response that they are indeed alleging that Amazon employees used individual third-party sellers’ data. Dkt. # 82 at 22.

An examination of the CAC reveals that Plaintiffs do, in fact, allege that Amazon used individual sellers’ data. Dkt. # 70 at 24 (“The [Amazon] employees relayed that Amazon’s use of individual third-party seller’s data was a ‘common practice that was discussed openly in meetings they attended . . . pulling data on competitors, including individual sellers, for example,

1 was ‘standard operating procedure’ when making products . . .”). Dkt. # 70 at 24. The use of
 2 individual third-party data contradicts the statements alleged in the Complaint. *See, e.g.*, Dkt. #
 3 70 at 103. Therefore, the Court concludes that Plaintiffs’ allegations regarding the falsity of
 4 these statements are sufficiently pleaded. *See Wyler Summit P’ship*, 135 F.3d at 661.

5 Defendants’ third argument is that Plaintiffs only highlight “isolated, discrete instances of
 6 Amazon violating its [third-party] Policy” and these violations are not “sufficiently widespread
 7 to render” Defendants’ statements misleading. Dkt. # 75 at 28. Further, Defendants assert that
 8 no reasonable investor could believe that no violations of policy could ever occur and that Bezos
 9 informed the Subcommittee that he could not guarantee full compliance with Amazon’s internal
 10 policies, considering the number of third-party sellers with which it engages. Dkt. # 75 at 28.
 11 Plaintiffs respond that they plead a regular business practice of misappropriating individual
 12 sellers’ data. Dkt. # 82 at 22–23.

13 The Court agrees with Plaintiffs that they sufficiently plead widespread violations of
 14 Amazon’s internal policy, and thus misleading Data Statements. The CAC alleges that
 15 Amazon’s violations of its internal policy were “systemic” and that thousands of Amazon
 16 employees had unauthorized access to non-public third-party seller data. Dkt. # 70 at 31, 34.
 17 These allegations suggest more than the mere “isolated” or “discrete” violations that Amazon
 18 describes, and therefore satisfy the standard for misleading statements. *See Kang v. PayPal*
 19 *Holdings, Inc.*, 620 F. Supp. 3d 884, 899 (N.D. Cal. 2022) (“Even if Plaintiffs had identified
 20 specific legal violations, those violations would need to be frequent or widespread enough to
 21 render the statements misleading.”). *See also Retail Wholesale & Dep’t Store Union Loc. 338*
 22 *Ret. Fund v. Hewlett-Packard Co.*, 845 F.3d 1268, 1278 (9th Cir. 2017).

(3) Statements about Amazon's Search Criteria and FBA are Adequately Alleged to be False or Misleading.

Defendants’ next argument is that Amazon never favored its own private-label products, or products sold by sellers who used Amazon’s fulfillment service (FBA) to the detriment of third-party sellers, and that Plaintiffs’ allegations of misrepresentations to that effect are unsupported. Dkt. # 75 at 28–30. Defendants emphasize the fact that Plaintiffs’ cited sources for these allegations—the 2020 *WSJ* article and internal emails from 2009 and 2010—do not support the proposition that Amazon was untruthful regarding its treatment of third-party sellers. *Id.* at 28. Defendants also emphasize that sellers who used FBA may have been “indirectly” favored by its featured offer algorithm because the service generally provides a better and more reliable experience for customers, but that these sellers were never directly favored. *Id.* Plaintiffs respond that the CAC cogently alleges false or misleading statements regarding whether Amazon considered FBA participation in determining the winner of the Buy Box. Dkt. # 82 at 23. They also emphasize that the ICA investigation found that third-party sellers who did not use FBA were excluded from “a set of advantages essential for obtaining visibility and better sales prospects.” *Id.* at 24 (citing Dkt. # 70 at 43–44).

The Court concludes that Plaintiffs sufficiently allege false or misleading statements regarding Amazon’s treatment of its own products, as well as products sold by third-party sellers who used FBA, compared to third-party sellers who did not use FBA. Plaintiffs do not need to show, at this stage of the litigation, that Amazon’s algorithm “directly” favored their own products or third-party products that used FBA. They are simply required to plead, with particularity, the elements of fraud including that Defendants’ statements were false or misleading. *See* Fed. R. Civ. P. 9(b). Defendants have essentially admitted that they may have “indirectly” favored their own products and FBA products, which contradicts statements such as

1 “we do not favor . . . products that use FBA over others.” See, e.g., Dkt. # 70 at 107. Further
2 dissecting the minutiae of how the Buy Box algorithm worked (for example, parsing out whether
3 “FBA” vs. “shipping speed” were categories considered by the algorithm) would be
4 inappropriate at the motion to dismiss phase where discovery has not yet been completed.

(4) Statements About Amazon's Search Relationships with, Investments in, and Sales by Third-Party Sellers are Adequately Alleged to be False or Misleading.

7 Lastly, Defendants argue that their remaining statements regarding third-party sellers
8 were not misleading, and that Plaintiffs' allegations are insufficient because they simply point to
9 statements that "mention third-party sellers." Dkt. # 75 at 30–32. Defendants emphasize that the
10 allegedly misleading statements are not factually particular, too general and subjective, and
11 opinion statements that are not alleged to be subjectively disbelieved. *Id.* Plaintiffs respond that
12 the CAC alleges false or misleading statements with specificity. Dkt. # 82 at 25–26.

The Court concludes that the remaining challenged statements do more than simply
13 “mention” third-party sellers. Plaintiffs point to specific statements by Defendants indicating
14 that Amazon was “committed” “to supporting” third-party sellers. Dkt. # 70 at 118–19.
15 Plaintiffs allege that these statements were false or misleading because Defendants in fact
16 employed anticompetitive tactics against third-party sellers, including suspending their accounts,
17 destocking products, blocking purchases, and falsely listing products as out of stock. *Id.* at 111.
18 The Court concludes that these allegations meet the particularity requirement of Rule 9(b) and do
19 more than “merely mention” third-party sellers. See Dkt. # 75 at 30.
20

b. Statements Related to Capacity

22 Defendants' motion separates its challenged statements regarding capacity into two
23 categories: statements regarding "historical and then-current demand and capacity growth," and
24 statements regarding "future plans for capacity and anticipated future demand." Dkt. # 75 at 32-

1 39. With respect to the first category of statements, Defendants maintain that their statements
2 accurately reflected then-current high demand and year-over-year growth. Defendants also
3 emphasize that, even if the challenged statements implied that demand were greater than it was
4 in actuality, no reasonable investor would have relied on vague and general remarks or “non-
5 actionable puffery.” Dkt. # 75 at 34. With respect to the second category of statements,
6 Defendants contend that they are not actionable because they are “quintessential statements of
7 opinion,” protected under the PSLRA safe harbor, and not misleading opinions under the
8 *Omnicare* standard. Dkt. # 75 at 34–37. Lastly, Defendants urge the Court not to credit the
9 accounts of two former Amazon employees, because the CAC does not provide an adequate
10 basis for their personal knowledge of events. *Id.* at 37–38. Plaintiffs respond by clarifying that
11 their claims relate only to then-present information that was allegedly misrepresented, and that
12 the challenged statements cannot be classified as “puffery,” forward-looking, or opinions. Dkt. #
13 82 at 29–37. They also argue that the former employee allegations are reliable and corroborate
14 post-Class Period reporting and disclosures. *Id.* at 32–34.

15 The Court agrees that Plaintiffs sufficiently allege false or misleading statements relating
16 to Amazon’s capacity during the Class Period. The CAC points to various statements by
17 Defendants in and after July 2021 that Amazon was continuing to expand capacity to “keep
18 pace” with high levels of customer demand. *See, e.g.*, Dkt. # 70 at 128–29; *see also id.* at 135
19 (October 2021 statement that “the incremental demand that came our way during the pandemic
20 has remained and that we are continuing to grow on top of that.”). Plaintiffs allege that, in fact,
21 by the time those statements were made, capacity had exceeded demand and a decision had
22 already been made to scale back expansion. *Id.* at 85. Plaintiffs also allege that by the time
23 many of these statements were made, Amazon was accumulating unused warehouse space and
24 wasted inventory because it had overbuilt, yet Defendants continued to represent that Amazon

1 was increasing expansion efforts to meet fast-growing demand. *See* Dkt. # 82 at 33. The extent
 2 to which these allegations are supported, as well as more granular questions of fact—such as
 3 whether actual net sales met projected net sales during the Class Period and whether abandoned,
 4 delayed, or cancelled projects were counted in Amazon’s square footage totals—are not
 5 appropriate for resolution at this stage. Plaintiffs allege with particularity that there was a
 6 discrepancy between the information shared with investors and the true state of affairs, which
 7 suffices to survive a motion to dismiss. *See Fecht v. Prive Co.*, 70 F.3d 1078, 1083 (9th Cir.
 8 1995); *In re Quality Sys., Inc. Sec. Litig.*, 865 F.3d 1130, 1143–44 (9th Cir. 2017).

9 Further, the challenged statements regarding capacity are not forward-looking, “puffery,”
 10 or opinions, and are therefore actionable. First, the Court agrees with Plaintiffs that the allegedly
 11 false and misleading statements related to then-present information. Plaintiffs allege that
 12 Defendants misrepresented Amazon’s decision to substantially roll back its expansion plan, a
 13 decision that had allegedly been made but not disclosed at the time of the statements in question.
 14 *See, e.g.*, Dkt. # 70 at 134 (“the incremental demand that came our way during the pandemic has
 15 remained, and that we are continuing to grow on top of that”). The statements are thus not
 16 protected by the PSLRA safe harbor. *See* 15 U.S.C. § 78u-5(i)(1)(A) & (B). Second, the
 17 statements in question are not puffery; they describe the relationship between demand and
 18 investment growth in more specific terms than the vaguely optimistic descriptors in the cases
 19 cited by Defendants. *See In re SunPower Corp. Sec. Litig.*, No. 16-cv-04710-RS, 2018 WL
 20 4904904, at *4 (N.D. Cal. Oct. 9, 2018) (“we have this strong demand” and “there is very, very
 21 strong demand” are non-actionable puffery); *In re Ford Motor Co. Sec. Litig., Class Action*, 381
 22 F.3d 563, 570 (6th Cir. 2004) (statement that “Ford has dedicated itself to finding even better
 23 ways of delivering safer vehicles to the consumer” was puffery). Lastly, the challenged
 24 statements cannot be classified as opinions and are thus not subject to the *Omnicare* standard.

1 See *Omnicare, Inc. v. Laborers Dist. Council Const. Indus. Pension Fund*, 575 U.S. 175, 183
 2 (2015) (“A fact is a thing done or existing or an actual happening . . . An opinion is a belief, a
 3 view, or a sentiment which the mind forms of persons or things.” (internal quotations and
 4 citations omitted)). Plaintiffs allege that Defendants concealed or misrepresented information
 5 relating to then-current customer demand, capacity, and growth plans, and many of the
 6 statements they challenge do not include qualifying language such as “I believe,” or “I think”
 7 (the language referenced in *Omnicare* as typically indicative of opinion statements).

8 Lastly, the Court concludes that Plaintiffs describe their confidential witnesses with
 9 sufficient particularity to support the probability that they knew about Defendants’ alleged fraud.
 10 In the Ninth Circuit, when a plaintiff’s allegations come from accounts of confidential witnesses,
 11 their use in satisfying the PSLRA standard of particularity must be addressed. *In re Daou Sys., Inc.*, 411 F.3d 1006, 1015 (9th Cir. 2005). “It is not sufficient for a plaintiff’s pleadings to set
 12 forth a belief that certain unspecified sources will reveal, after appropriate discovery, facts that
 13 will validate her claim.” *In re Silicon Graphics Inc. Securities Litigation*, 183 F.3d 970, 985 (9th
 14 Cir. 1999). Instead, to meet this particularity requirement for personal sources of information,
 15 “personal sources of information relied upon in a complaint should be ‘described in the
 16 complaint with sufficient particularity to support the probability that a person in the position
 17 occupied by the source would possess the information alleged.’” *Nursing Home Pension Fund, Loc. 144 v. Oracle Corp.*, 380 F.3d 1226, 1233 (9th Cir. 2004) (quoting *Novak v. Kasaks*, 216 F.3d 300, 314 (2d Cir. 2000)). Here, the Complaint identifies two confidential witnesses who
 18 worked for Amazon and whose accounts corroborate Plaintiffs’ capacity statement allegations.
 19 Dkt. # 70 at 80–82. The Court agrees that the witnesses’ accounts, which are included in the
 20 CAC along with their job titles, experience, responsibilities, and periods of employment, comply
 21 with the applicable law because it is “plausible” that the witnesses “would know, or could

1 reasonably deduce,” the information attributed to them. *Berson.*, 527 F.3d 982 at 985; see Dkt. #
 2 70 at 80–82.

3 In sum, the Court concludes that Plaintiffs sufficiently plead the first element, material
 4 misrepresentations or omissions, of their Section 10(b) claim.

5 2. Strong Inference of Scienter

6 To plead with particularity a “strong inference” of scienter, a complaint must allege that
 7 the defendant made false or misleading statements with an intent to deceive, manipulate, or
 8 defraud, or with deliberate recklessness. *Prodanova v. H.C. Wainwright & Co., LLC*, 993 F.3d
 9 1097, 1106 (9th Cir. 2021); *City of Dearborn Heights Act 345 Police & Fire Ret. Sys. v. Align*
 10 *Tech., Inc.*, 856 F.3d 605, 619 (9th Cir. 2017). Deliberate recklessness is not “*mere*
 11 *recklessness.*” *Schueneman v. Arena Pharms., Inc.*, 840 F.3d 698, 705 (9th Cir. 2016). Instead, it
 12 is “an *extreme* departure from the standards of ordinary care ... which presents a danger of
 13 misleading buyers or sellers that is either known to the defendant or is so *obvious* that the actor
 14 must have been aware of it.” *Id.* (citation omitted). To qualify as “strong,” an inference of
 15 scienter must be more than merely plausible or reasonable—it must be cogent and at least as
 16 compelling as any opposing inference of nonfraudulent intent. *Tellabs*, 551 U.S. at 314.

17 Ninth Circuit case law explains that plausibility is highly relevant to the scienter inquiry,
 18 especially in the context of the heightened pleading standards of Rule 9(b) and the PSLRA. See
 19 *In re NVIDIA Corp.*, 768 F.3d at 1058 (rejecting a theory of scienter because of the
 20 “implausibility of the timing in CW1’s account of events”); *Cafasso, U.S. ex rel. v. Gen.*
 21 *Dynamics C4 Sys., Inc.*, 637 F.3d 1047, 1055 (9th Cir. 2011) (“[C]laims of fraud or mistake ...
 22 must, in addition to pleading with particularity, also plead plausible allegations.”); *Nguyen v.*
 23 *Endologix, Inc.*, 962 F.3d 405, 415 (9th Cir. 2020) (“[T]he PSLRA neither allows nor requires us
 24 to check our disbelief at the door.”).

1 Further, when a plaintiff seeks to hold a company and individual defendants liable for
 2 false or misleading statements, they must “plead, in great detail, facts that constitute strong
 3 circumstantial evidence of deliberately reckless or conscious misconduct” on the part of the
 4 specific speaker(s) in question. *Glazer Cap. Mgmt., LP v. Magistri*, 549 F.3d 736, 745 (9th Cir.
 5 2008); *see also Curry v. Yelp Inc.*, 875 F.3d 1219, 1227 (9th Cir. 2017) (requiring “detailed and
 6 specific allegations about management’s exposure to factual information within the company.”).
 7 In other words, it does not suffice to simply allege that Individual Defendants had a “general
 8 awareness of the day-to-day workings of the company’s business.” *Id.*

9 a. Lack of Motive

10 Defendants point out that the CAC does not allege a plausible motive for why they would
 11 knowingly lie to investors, regulators, and Congress about their relationships with third-party
 12 sellers or their expansion efforts. Dkt. # 75 at 39–40, 45–46. The Court cannot locate anywhere
 13 in the CAC where Plaintiffs specifically discuss motive. *See generally* Dkt. # 70. In their
 14 response, Plaintiffs suggest that—with respect to their treatment of third-party sellers—
 15 Defendants may have been motivated by a “desire to avoid enormous fines that government
 16 watchdogs would have imposed on Amazon for its anticompetitive conduct.” Dkt. # 82 at 30.
 17 But they do not explain how lying to investors would have changed the outcome of such
 18 investigations or decreased the likelihood of fines. *See generally* Dkt. # 82. Plaintiffs do not
 19 offer any plausible motive for why Defendants would lie about their capacity expansion plan,
 20 only stating, “courts routinely find that postponing the revelation of the truth, even in the short
 21 term, is consistent with an inference of scienter.” Dkt. # 82 at 49.

22 Plaintiffs’ failure to allege a cogent motive for Defendants’ alleged fraud significantly
 23 undercuts their theory of scienter. *See Prodanova*, 993 F.3d at 1103 (“if the complaint fails to
 24 plead a plausible motive for the allegedly fraudulent action, the plaintiff will face a substantial

1 hurdle in establishing scienter.”). First, Plaintiffs’ theory for why Defendants would have
 2 concealed their allegedly anti-competitive practices with respect to third-party sellers does not
 3 make sense. It depends on the assumption that Defendants would be motivated to inflate the
 4 price of their stock for a time, and then face the fallout when their anti-competitive practices
 5 were revealed. If Defendants had sought to profit in the meantime, such as by selling their stock
 6 or selling the company at a premium, this theory would be more plausible. *See, e.g., In re Rigel*
7 Pharm. Inc. Sec. Litig., 697 F.3d 869, 884–85 (9th Cir. 2012); *Nguyen*, 962 F.3d at 415; *Zucco*
8 Partners, LLC v. Digimarc Corp., 552 F.3d 981, 1004 (9th Cir. 2009); *Prodanova*, 993 F.3d at
 9 1107. But there are no such factual allegations here. Similarly, Plaintiffs fail to allege a motive
 10 for why Defendants would spend billions of dollars expanding Amazon’s fulfillment capacity to
 11 satisfy unanticipated customer demand, and then hide the fact that capacity had outpaced demand
 12 from investors. Plaintiffs admit that Amazon’s decision to over-build eventually resulted in a
 13 \$3.8 billion loss and triggered employee layoffs and the shutdown of facilities. Dkt. # 70 at 91,
 14 95–96. Plaintiffs do not allege that Defendants profited from this loss, or that the decision to
 15 over-build somehow benefited them at the expense of investors. Plaintiffs’ failure to plead a
 16 plausible narrative about why the Individual Defendants would make false statements cuts
 17 strongly against the inference of scienter.

18 b. No Direct Allegations as to the State of Mind of the Individual Defendants

19 Defendants correctly point out that where, as here, Plaintiffs “seek to hold individuals
 20 and a company liable on a securities fraud theory,” they must “allege scienter with respect to
 21 each of the individual defendants.” Dkt. # 75 at 40–41 (citing *Oregon Pub. Emps.*, 774 F.3d at
 22 607). They argue that the CAC fails to meet this standard because, although it alleges that
 23 various statements are false or misleading, it does not explain whether the corresponding speaker
 24 was contemporaneously aware that the statement was false. Dkt. # 75 at 40–41. Plaintiffs do not

1 directly respond to this argument and do not parse their response into separate sections for each
2 Individual Defendant.

3 Regarding Plaintiffs' third-party seller allegations, Defendants are correct that the CAC
4 does not plead facts explaining when any Individual Defendant was purportedly informed of
5 Amazon's allegedly anticompetitive conduct, how that information was communicated, or by
6 whom. Plaintiffs do not point to any specific meetings or calls involving any Individual
7 Defendants during which the purported anticompetitive conduct was discussed, nor any
8 documents provided to any Individual Defendants about the challenged conduct. *See generally*
9 Dkt. # 70. Regarding the capacity allegations, Plaintiffs similarly do not plead any facts about
10 particular meetings, calls, reports, or other ways through which any Individual Defendant
11 purportedly learned about contrary facts to their challenged statements. *See generally* Dkt. # 70.
12 The CAC relies heavily on the *WSJ* article, which suggests, based on unknown sources, that
13 Jassy was aware that demand had begun to slow in July 2021. But even assuming the truth of
14 these accounts, none of Jassy's challenged statements conflict with this article. Rather, his
15 claims that Amazon was building its fulfillment network, "to satisfy customer needs," and that
16 the company "was scaling its fulfillment network to "bring even faster delivery to more
17 customers" can be true even assuming a decrease in demand as of July 2021. *See* Dkt. # 70 at
18 133, 141. The rest of Plaintiffs' allegations, which include accounts by former employee FE-1,
19 also do not show first-hand knowledge on the part of any Individual Defendants because they do
20 not establish that she conveyed any information to them or personally observed any specific
21 information being communicated at meetings, calls, or via any documents or emails.

c. Allegations of Circumstantial Evidence are Insufficient

Without any direct evidence as to the Individual Defendants' state of mind, Plaintiffs rely on allegations of circumstantial evidence to support the inference of scienter. But their allegations fail to clear the high bar set by *Tellabs*, 551 U.S. at 324.

(1) Third-party Seller Allegations

In their response, Plaintiffs cite reports by three independent government watchdogs (the Subcommittee, the Commission and the ICA), finding that Amazon’s treatment of third-party sellers constituted misconduct, as evidence of scienter. Dkt. # 82 at 39. But these reports do not specify whether certain members of Amazon’s leadership knew about the misconduct when they made the challenged statements, which is required to show scienter. *See, e.g., Prodanova*, 993 F.3d at 1110.³ Plaintiffs also argue that the existence of government investigations during the Class Period put Defendants “on notice of a risk.” *See* Dkt. # 82 at 40. But they do not explain how the Individual Defendants’ general awareness of investigations would have informed them of specific information that rendered their statements false. For example, Plaintiffs allege that Defendants should have disclosed the nature of Amazon’s allegedly anti-competitive practices toward third-party sellers. *See, e.g.*, Dkt. # 70 at 126. But they do not explain how the existence of government investigations would have clued the Individual Defendants into the specific nature of these practices.

Second, Plaintiffs argue in their response that Amazon’s response to the Commission’s inculpatory findings “further strengthens the inference of scienter.” Dkt. # 82 at 41. But the fact

³ Plaintiffs cite an unpublished opinion from the Southern District of New York, in which the court stated, “[T]he most important of the[] pieces of evidence [supporting scienter] is the allegation that [the government agency] ‘repeatedly informed Mylan’” of its finding of misconduct. But there, the speaker was informed of the falsity of the substance of his statements years before making them to investors. *See In Re Mylan N.V. Sec. Litig.*, No. 16-CV-7926, 2018 WL 1595985, at *13 (S.D.N.Y. 2018). But here Plaintiffs have not alleged that the Individual Defendants were contemporaneously aware of the falsity of their statements when they made them.

1 that the company took remedial measures after the Class Period does not show what any
 2 Individual Defendant knew when making the challenged statements. For example, stating that
 3 Amazon would refrain from using non-public data to compete with third-party sellers in the
 4 company's private-label business does not show that Individual Defendants knew of any specific
 5 anti-competitive practices during the Class Period. In Plaintiffs' cited cases, the defendants were
 6 alleged to have had contemporaneous knowledge of the falsity of their statements. *See, e.g.*,
 7 *Matrixx Initiatives*, 563 U.S. at 31 ("Respondents claim that Matrixx's statements were
 8 misleading in light of reports that Matrixx had received, but did not disclose . . ."). By contrast,
 9 here there is no allegation of what Individual Defendants knew during the Class Period when the
 10 challenged statements were made.

11 Third, Plaintiffs argue that Defendants' "decisions to speak publicly about Amazon's
 12 treatment of third-party sellers" supports the inference of scienter because it "evidences their
 13 knowledge or severe recklessness." Dkt. # 82 at 41. But if the mere decision to speak on a topic
 14 were indicative of scienter, there would be no distinction between the element of scienter and the
 15 requirement to plead a false statement. Further, the challenged statements themselves do not
 16 evince any particular defendant's first-hand knowledge or state of mind. *Cf. Institutional Invs.*
 17 *Grp. v. Avaya, Inc.*, 564 F.3d 242, 269–70 (3d Cir. 2009).

18 Fourth, Plaintiffs argue that Bezos's and Jassy's "hands-on, autocratic leadership style,
 19 further bolsters the inference of scienter." Dkt. # 82 at 42. But the Ninth Circuit recently
 20 rejected a similar argument concerning almost identical allegations. *See Webb v. Solarcity*
 21 *Corp.*, 884 F.3d 844, 857 (9th Cir. 2018) ("Webb has alleged that Defendants—Appellees had a
 22 hands-on style and general accounting acumen, but not that they were involved in [minute]
 23 accounting decisions . . . Webb has not alleged that Defendants—Appellees had actual access to
 24 the accounting formula, but only generalized access to reports that may have documented its

application.”). In Plaintiffs’ cited cases, the allegations did not simply establish that the defendants were “hands-on” or “autocratic” leaders, but also that they had accessed specific information that would have alerted them to the falsity of their statements. *See Nursing Home*, 380 F.3d at 1231 (“Plaintiffs allege that, since all sales information was in this database, and since the top executives admit to having monitored the database, Oracle must have been aware that it was not going to meet its sales projections earlier in the third quarter . . .”); *In re VeriFone Holdings, Inc. Sec. Litig.*, 704 F.3d 694, 710 (9th Cir. 2012) (“[T]he complaint alleges in detail that [the individual defendants] . . . would have been aware of the complications associated with the Lipman merger.”). Moreover, these cases predate *Webb*, which clearly establishes that allegations of “hands-on” leadership style are not sufficiently particularized to give rise to an inference of scienter. 884 F.3d at 857.

(2) Capacity Allegations

13 Plaintiffs argue that Amazon’s reputation of being “obsessed with data” supports a strong
14 inference of scienter because it suggests that Individual Defendants closely monitored and
15 tracked real time data. Dkt. # 82 at 43–44. They argue that, because Amazon used an internal
16 forecasting system (“SCOT”) to analyze growth logistics for the Company and plan capacity
17 growth, the Individual Defendants would have been aware of the company’s slowing demand
18 and capacity expansion plan. *Id.* But the Ninth Circuit has rejected the argument that the
19 existence of a management information system supports a strong inference of scienter. *See*
20 *Metzler*, 540 F.3d at 1068 (“[C]orporate management’s general awareness of the day-to-day
21 workings of the company’s business does not establish scienter—at least absent some additional
22 allegation of specific information conveyed to management and related to the fraud.”). Without
23 any pleaded facts regarding what information was accessed, when, or by which Individual

1 Defendant, the existence of an internal forecasting system does not support a strong inference of
 2 scienter.

3 Second, Plaintiffs argue that the Individual Defendants must have known facts
 4 contradicting their challenged statements because Amazon's "e-commerce expansion and
 5 fulfillment network" is a "core operation" of the company. *See Police Ret. Sys. Of St. Louis v.*
 6 *Intuitive Surgical, Inc.*, 759 F.3d 1051, 1062 (9th Cir. 2014). Knowledge of a company's core
 7 operations shows scienter when the allegations "suggest that defendants had actual access to the
 8 disputed information" or if "the relevant fact is of such prominence that it would be 'absurd' to
 9 suggest otherwise." *S. Ferry LP, No. 2 v. Killinger*, 542 F.3d 776, 785 (9th Cir. 2008). The
 10 parties dispute whether Amazon's fulfillment related operations, which accounted for 16% of net
 11 sales, constitute a "core operation" of the company. *Compare Okla. Firefighters Pension & Ret.*
 12 *Sys. v. Ixia*, No. CV 13-08440 MMM, 2015 WL 1775221, at *30 (C.D. Cal. Apr. 14, 2015)
 13 (service contracts that accounted for less than 20% of revenue not a "core operation," which
 14 generally requires "that the operation in question constitute nearly all of a company's business")
 15 *with Brown v. China Integrated Energy, Inc.*, 875 F. Supp. 2d 1096, 1123 (C.D. Cal. 2012). But
 16 even assuming they do, Plaintiffs have failed to allege "specific admissions by one or more
 17 corporate executives of detailed involvement in the minutia . . . or witness accounts
 18 demonstrating that executives had actual involvement in creating false reports," an additional
 19 requirement for satisfying the "core operations" exception. *Intuitive*, 759 F.3d at 1062; *see also*
 20 *Zucco*, 552 F.3d at 1000 ("The [core operations exception] permits general allegations about
 21 'management's role in a corporate structure and the importance of the corporate information
 22 about which management made false or misleading statements' to create a strong inference of
 23 scienter when these allegations are buttressed with 'detailed and specific allegations about

1 management's exposure to factual information within the company.”” (internal citations
 2 omitted)).

3 Third, Plaintiffs argue that Jassy's “hands-on” approach, “relentless focus on detail,” and
 4 “ultra-detail-oriented management style” supports his scienter. Dkt. # 82. This argument fails
 5 for the reasons stated above. *See supra*, pp. 34–35 (citing *Webb*, 884 F.3d at 857).

6 Fourth, Plaintiffs point to the resignation of former Amazon executive David Clark as
 7 probative of scienter. Dkt. # 82 at 46. But Plaintiffs do not “allege sufficient information to
 8 differentiate between a suspicious change in personnel and a benign one.” *Zucco*, 552 F.3d at
 9 1002. Plaintiffs do not allege that Clark was involved in any alleged fraud or that he had any
 10 knowledge of the Individual Defendants' statements or contemporaneous state of mind, pointing
 11 instead mainly to the timing of his departure. *See id.* (“a “[m]ere conclusory allegation[] that a
 12 financial manager resigns or retires … shortly before the corporation issues its restatement,” . . .
 13 “without more, cannot support a strong inference of scienter.”). These allegations do not support
 14 a strong inference of scienter.

15 Plaintiffs' remaining arguments also do not support a strong inference of scienter. As
 16 this order explains *supra*, the mere fact that the Individual Defendants spoke about a topic does
 17 not provide support for a strong inference of scienter, nor does the fact that there may be
 18 inconsistencies between the Individual Defendants' public pronouncements and what was
 19 “known internally within Amazon.” Dkt. # 82 at 48. Instead, Plaintiffs must specifically allege
 20 where, when, and how the Individual Defendants became aware of information contradicting
 21 their challenged statements. *See Prodanova*, 993 F.3d at 1107. Similarly, the accounts by
 22 former employees do not support a strong inference of scienter because they do not explain how
 23 the Individual Defendants gained first-hand knowledge of information contradicting their
 24 challenged statements. *Id.*

1 Plaintiffs fail to establish a plausible motive for why the Individual Defendants would lie
 2 to their investors. They also fail to show that the Individual Defendants had first-hand
 3 knowledge of the falsity of their statements when they were made. Lastly, Plaintiffs' allegations
 4 of circumstantial evidence regarding the Individual Defendants' state of mind do not support a
 5 strong inference of scienter. They therefore fail to adequately plead the second element of their
 6 Section 10(b) claim.

7 3. Loss Causation with Respect to the Third-Party Seller Allegations

8 Loss causation refers to the causal connection between the defendant's fraudulent
 9 conduct and the plaintiff's economic loss. One way to prove loss causation is to show that the
 10 defendant's fraud was revealed to the market through one or more "corrective disclosures" and
 11 that the company's stock price declined as a result. *In re BofI Holding, Inc. Sec. Litig.*, 977 F.3d
 12 781, 786 (9th Cir. 2020).

13 Defendants argue that Plaintiffs fail to plead loss causation because they do not allege a
 14 corrective disclosure. Dkt. # 75 (citing *In re BofI Holding*, 977 F.3d at 791. Defendants argue
 15 that the various news reports and the Subcommittee reports cited by Plaintiffs do not constitute
 16 corrective disclosures. Dkt. # 75 at 49–52. Regarding the news reports, they argue that they
 17 simply announce the existence of investigations, which does not suffice to establish loss
 18 causation because the market "cannot possibly know what the investigation will ultimately
 19 reveal." Dkt. # 75 at 49 (citing *Loos v. Immersion Corp.*, 762 F.3d 880, 890 (9th Cir. 2014)).
 20 They also argue that the alleged anticompetitive conduct discussed in the news reports is "not
 21 new" but instead "cumulative of substantially identical information that was the subject of
 22 repeated public reporting prior to the first alleged corrective disclosure on April 28, 2020." Dkt.
 23 # 75 at 50. Regarding the Subcommittee reports, Defendants argue that they are not corrective
 24 disclosures because they "did not determine that Amazon engaged in wrongdoing," and "did not

1 reveal new information to the market.” *Id.* at 51–52. Plaintiffs counter that they sufficiently
 2 plead loss causation because the various news and investigative reports referenced in the CAC
 3 constitute interrelated partial disclosures, and they clarify the causal connection between these
 4 disclosures and the harm they suffered. Dkt. # 70 at 49–53.

5 First, the Court notes that establishing a corrective disclosure is only “one way to prove
 6 loss causation,” as the court in *BofI Holdings* clarifies. 977 F.3d at 791; *see also Mineworkers’*
 7 *Pension Scheme v. First Solar Inc.*, 881 F.3d 750, 753 (9th Cir. 2018) (“Disclosure of the fraud
 8 is not a sine qua non of loss causation, which may be shown even where the alleged fraud is not
 9 necessarily revealed prior to the economic loss.”). The Supreme Court has emphasized that
 10 pleading loss causation is “not meant to impose a great burden upon a plaintiff,” *Dura Pharms.*,
 11 544 U.S. at 347, and the Ninth Circuit has held that loss causation involves “no more than the
 12 familiar test for proximate cause,” and “there are an ‘infinite variety’ of ways for a tort to cause a
 13 loss.” *Mineworkers’ Pension Scheme*, 881 F.3d at 753 (internal citations omitted). Plaintiffs
 14 allege that Amazon’s stock price was artificially inflated throughout the Class Period as a result
 15 of Defendants’ challenged statements and omissions. Dkt. # 70 at 160–62. They also allege that,
 16 following various news articles and investigative reports, Amazon’s stock price dropped thereby
 17 damaging the class. *Id.* at 162–75.

18 The Court concludes that Plaintiffs’ allegations suffice to establish loss causation. *Dura*
 19 *Pharms.*, 544 U.S. at 347. Defendants make several references to *Loos*, in which the Ninth
 20 Circuit held that “the announcement of an investigation, standing alone and without any
 21 subsequent disclosure of actual wrongdoing, does not reveal to the market the pertinent truth of
 22 anything, and therefore does not qualify as a corrective disclosure.” 762 F.3d at 890 (internal
 23 quotations and citation omitted). But *Loos* left open the question whether the announcement of
 24 an investigation can form the basis for a viable loss causation theory if the complaint also alleges

1 a later corrective disclosure by the defendant. *Id.* The Ninth Circuit answered that question in
 2 the affirmative in *Lloyd v. CVB Financial Corp.*, 811 F.3d 1200, 1210 (9th Cir. 2016) (“any
 3 other rule would allow a defendant to escape liability by first announcing a government
 4 investigation and then waiting until the market reacted before revealing that prior representations
 5 under investigation were false.”).

6 Here, Plaintiffs allege several disclosures that satisfy the *Lloyd* standard. For example, a
 7 news article published in May 2020 reported that Bezos was called to testify before an antitrust
 8 panel of the House Judiciary Committee regarding Amazon’s allegedly anticompetitive use of
 9 third-party sellers’ data, and a news article published in August 2020 reported that New York’s
 10 Attorney General’s Office was collaborating with an ongoing federal investigation regarding
 11 potential antitrust violations. Dkt. # 70 at 162–64. Amazon’s stock price dropped following
 12 each of these reports. *Id.* Later, in October 2020, the Subcommittee released a report that
 13 described how Amazon’s dual role as an operator of its marketplace that hosts third-party sellers
 14 and a seller in that same marketplace creates an inherent conflict of interest. *Id.* at 164.
 15 Amazon’s stock price fell again following this report. *Id.*

16 Defendants’ argument that the Subcommittee reports are not corrective disclosures
 17 because the reports did not determine that Amazon engaged in wrongdoing is not convincing.
 18 To qualify as a corrective disclosure in the securities fraud context a report need only bring to
 19 light the falsity of past challenged statements. The Subcommittee reports did so, pointing to a
 20 conflict of interest where Amazon had previously represented that its interests were aligned with
 21 those of third-party sellers. *See, e.g.*, Dkt. # 70 at 121. Defendants’ argument that the alleged
 22 disclosures did not contain “new” information is similarly unconvincing. The news reports did
 23 bring to light additional information regarding the nature of investigations, and the
 24 Subcommittee reports represented authoritative findings by a government body as to Amazon’s

1 conduct. The causal connection between these reports and the decrease in Amazon’s stock price
 2 is not difficult to follow. *See, e.g., In re New Century*, 588 F. Supp. 2d 1206, 1238 (C.D. Cal.
 3 2008) (“The Complaint sufficiently provides KPMG with an ‘indication of the loss and the
 4 causal connection that [Plaintiffs] [have] in mind.’” (alterations in original) (quoting *Dura*, 544
 5 U.S. at 347)).

6 In sum, Plaintiffs adequately plead loss causation, the third element of their Section 10(b)
 7 claim, as to their third-party allegations.

8 4. Timeliness of Third-Party Allegations

9 Defendants assert that Plaintiffs’ third-party allegations are time barred because “they are
 10 predicated upon purported facts that Plaintiffs should have discovered before May 6, 2020—two
 11 years before the initial complaint in this action was filed.” Dkt. # 75 at 52 (citing Dkt. # 1).

12 A securities fraud claim must be brought no later than two years after “a reasonably
 13 diligent plaintiff would have discovered ‘the facts constituting the violation[.]’” *Merck & Co., Inc. v. Reynolds*, 559 U.S. 633, 637 (2010) (internal citations omitted). “[T]he limitations period
 14 does not begin to run until the plaintiff thereafter discovers or a reasonably diligent plaintiff
 15 would have discovered ‘the facts constituting the violation,’ including scienter—irrespective of
 16 whether the actual plaintiff undertook a reasonably diligent investigation.” *Id.* at 653. “[T]he
 17 statute of limitations is an affirmative defense, the defendant bears the burden of proving that the
 18 plaintiff filed beyond the limitations period.” *Payan v. Aramark Mgmt. Servs. Ltd. P’ship*, 495
 19 F.3d 1119, 1122 (9th Cir. 2007).

21 Defendants argue that several news reports and other public sources revealed information
 22 regarding Amazon’s business practices vis-a-vis third-party sellers before May 6, 2020, thus
 23 precluding Plaintiffs’ claims. Dkt. ## 75 at 52–54; 84 at 26. According to Defendants,
 24 “Plaintiffs cannot sustain a fraud claim where ‘most of the facts Plaintiff contends were later

discovered were indeed disclosed' before the limitations period." Dkt. # 75 at 53 (citing cases) (quoting *Welgus v. TriNet Grp., Inc.*, No. 15-cv-03625-BLF, 2017 WL 167708, at *21 (N.D. Cal. Jan. 17, 2017)). Defendants also maintain that a "reasonably diligent plaintiff would also have discovered the facts supposedly supporting scienter before May 6, 2020." Dkt. # 75 at 54. In response, Plaintiffs assert that the "handful of news articles cited by Defendants" would not have alerted a "reasonably diligent plaintiff" to "the facts constituting violation." Dkt. # 82 at 53 (citing *City of Pontiac Gen. Emps.' Ret. Sys. v. MBIA, Inc.*, 637 F.3d 169, 174 (2d Cir. 2011)). Plaintiffs also argue that neither the pre-May 2020 news articles, nor the existence of various ongoing investigations at that time, could not have formed the basis for a viable securities fraud action under the "PSLRA's stringent pleading standard." Dkt. # 82 at 54–55.

The Court rejects Defendants' argument. Whether a plaintiff should have discovered facts to support its claim is inherently a fact-intensive inquiry. *In re Bare Escentuals, Inc. Sec. Litig.*, 745 F. Supp. 2d 1052, 1080 (N.D. Cal. 2010) (citing cases). Indeed, the Ninth Circuit instructs that

[t]he question of what a reasonably prudent investor should have known is particularly suited to a jury determination and . . . the defendant bears a considerable burden in demonstrating, at the *summary judgment stage*, that the plaintiff's claim is time barred. The burden must be at least as high on the pleadings.

In re Charles Schwab Corp. Sec. Litig., 257 F.R.D. 534, 557 (N.D. Cal. 2009) (internal quotations and citation omitted) (emphasis in original). Defendants highlight several news articles to argue that Plaintiffs' third-party allegations are time barred. See, e.g., Dkt. ## 76-10, 76-38; 76-48; 70 at 51. Yet the Court is not convinced that the mere fact that four articles published before May 2020—out of at least 50 different sources cited in the CAC—could imply that "most" of the facts Plaintiffs used for its third-party allegations were from before the limitations period. See Dkt. # 75 at 53. Next, Defendants appear to contend that, because two

1 key governmental investigations began—and certain investigative testimony was given—before
 2 May 2020, Plaintiffs third-party allegations are untimely. The Court disagrees. The
 3 Subcommittee reports and EU Commission final publications were well after May 2020
 4 limitations date. One wonders how Plaintiffs could have mounted a claim sufficient to meet the
 5 heightened pleading standards under Rule 9 and the PLSRA based on the mere commencement
 6 of these two investigations and before any final findings were issued.

7 Ultimately, the Court notes that the inquiry of what a reasonable investor should have
 8 known or discovered is a fact-intensive inquiry. For these reasons, at this juncture, the Court
 9 declines to dismiss Plaintiffs' claims as untimely.

10 D. Section 20(a) of the Exchange Act and Control Person Liability

11 To state a Section 20(a) claim, Plaintiffs must allege (1) a primary violation of the
 12 securities laws; and (2) that defendants “exercised actual power or control over” Amazon.
 13 *Zucco*, 552 F.3d at 990.

14 Defendants argue that, because there has been no primary violation of securities laws,
 15 this claim should be dismissed. Dkt. # 75 at 55. In the alternative, they urge the Court to dismiss
 16 the claim as to Sutton and Fildes because Plaintiffs fail to allege that either “exercised power or
 17 control” over Amazon. Dkt. # 75 (citing *No. 84 Emp.-Teamster Joint Council Pension Tr. Fund v. Am. W. Holding Corp.*, 320 F.3d 920, 945 (9th Cir. 2003)). Plaintiffs respond that Sutton and
 18 Fildes both held important roles within the company and spoke on Amazon’s behalf before
 19 Congress and during earnings calls, which is sufficient to allege control person liability at the
 20 pleadings stage. Dkt. # 82 at 44–45. As explained above, the Court agrees with Defendants that
 21 the CAC does not adequately plead a primary violation because it fails to allege scienter.

23 Nevertheless, the Court concludes that, assuming a primary violation is established,
 24 Plaintiffs adequately plead control person liability as to Sutton and Fields. Whether the

1 defendant is a controlling person is an intensely factual question involving scrutiny of the
 2 defendant's participation in the day-to-day affairs of the corporation and the defendant's power
 3 to control corporate actions. *See Howard v. Everex Sys., Inc.*, 228 F.3d 1057, 1065 (9th Cir.
 4 2000). Plaintiffs allege that Sutton has been Amazon's Associate General Counsel, Litigation &
 5 Regulatory, since 2016, and that Fildes has served as Head of Investor Relations since June
 6 2017. Dkt. # 70 at 16. They also allege that Sutton testified at a Subcommittee hearing in July
 7 2019, *id.* at 105, and that Fildes spoke to investors on earnings calls, *id.* at 67, 75. At the
 8 pleadings stage, these allegations suffice to plead control. *See Howard*, 228 F.3d at 1065 (9th
 9 Cir. 2000); *Hefler v. Wells Fargo & Co.*, No. 16-CV-05479-JST, 2018 WL 1070116, at *13
 10 (N.D. Cal. Feb. 27, 2018) ("Since Howard, '[c]ourts have found general allegations concerning
 11 an individual's title and responsibilities to be sufficient to establish control at the motion to
 12 dismiss stage.'") (quoting *In re Energy Recovery Inc. Sec. Litig.*, No. 15-CV-00265-EMC, 2016
 13 WL 324150, at *25 (N.D. Cal. Jan. 27, 2016))); *In re Adaptive Broadband Sec. Litig.*, No. C 01-
 14 1092 SC, 2002 WL 989478, at *19 (N.D. Cal. Apr. 2, 2002) ("[T]he fact that the named
 15 individual defendants held important positions in the company is sufficient at the pleadings
 16 stage."); *In re Volkswagen, "Clean Diesel" Mktg., Sales Pracs., & Prods. Liab. Litig.*, 258 F.
 17 Supp. 3d 1037, 1049 (N.D. Cal. 2017) ("Horn's appearance [before Congress] on behalf of
 18 Volkswagen reflects his position of authority"); *In re Apple Inc.*, 2020 WL 6482014, at *14
 19 ("[P]laintiff adequately alleges that [defendant] acted as a control person because he spoke on the
 20 Company's behalf."). Plaintiffs therefore adequately plead control person liability.

IV

CONCLUSION

23 For the foregoing reasons, the Court concludes: (1) Plaintiffs adequately plead material
 24 misrepresentation or omission; (2) Plaintiffs fail to adequately plead scienter; (3) Plaintiffs

1 adequately plead loss causation as to their third-party claims; (4) Plaintiffs' third-party claims are
2 timely; and (5) Plaintiffs adequately plead control person liability. Accordingly, the Court
3 DISMISSES Plaintiffs' Consolidated Amended Complaint without prejudice. The Court
4 GRANTS Plaintiffs leave until January 16, 2024, to file a second Consolidated Amended
5 Complaint.

6 Dated this 4th day of December, 2023.
